TOYOTA 8A NON-SMART KEY ALL KEYS LOST

PROGRAMMING CABLES CONNECTING METHODS

①Development Background

In normal situation, TOYOTA 8A H blade keys can't be added or erased in all keys lost except changing expensive new IMMO box. So TOYOTA all keys lost cables are developed, by which diagnostic device can read IMMO data and make master key to start the vehicle. The master key will help adding and erasing keys.

②Equipment Overview
